

Brentwood Christian Softball - Coach Trees

My background spans both ends of the spectrum. While my formal coaching exposure has been limited, encompassing only summer club assistance, my wealth of experience and understanding of the game is substantial. I initiated my involvement at a young age and dedicated five years to collegiate play at the Division II level in Minnesota. I eagerly anticipate translating my hands-on experiences into valuable contributions during this inaugural coaching season.

In coaching, Brentwood embodies the life and on-field philosophy I strive to uphold. My aim is to share the Lord's work by spreading His love and encouraging others to live according to His word. Using the skills God has granted us on the field is a daily reminder of cherishing His gifts. Ultimately, I aspire for each of these girls to derive joy from learning the sport and its skills, all the while gaining the resilience to overcome challenges.

In the context of the Brentwood Christian School softball program, the primary objective is to glean meaningful lessons from the sport—whether in life, skill development, overcoming challenges, or any other aspect—that contribute to our growth as individuals. Additionally, we set seasonal goals as a softball team at BCS, such as winning our district, advancing to state, and ultimately clinching victory at the state championship.

My definition of success centers around my players embracing a Christian lifestyle, wholeheartedly embodying the Lord's calling, and aspiring to join Him in heaven. Additionally, success, in my view, involves personal growth, making a positive impact on others, and dedicating oneself to the pursuit of passion and purpose. I believe that cultivating healthy priorities, nurturing strong beliefs, and navigating a purposeful life journey are fundamental aspects of success for any individual.
